HOW TO PUT ON A CONDOM

Check the expiration

Though condom shelf life is relatively long, it's always a good idea to check the expiration date.

Open the wrapper

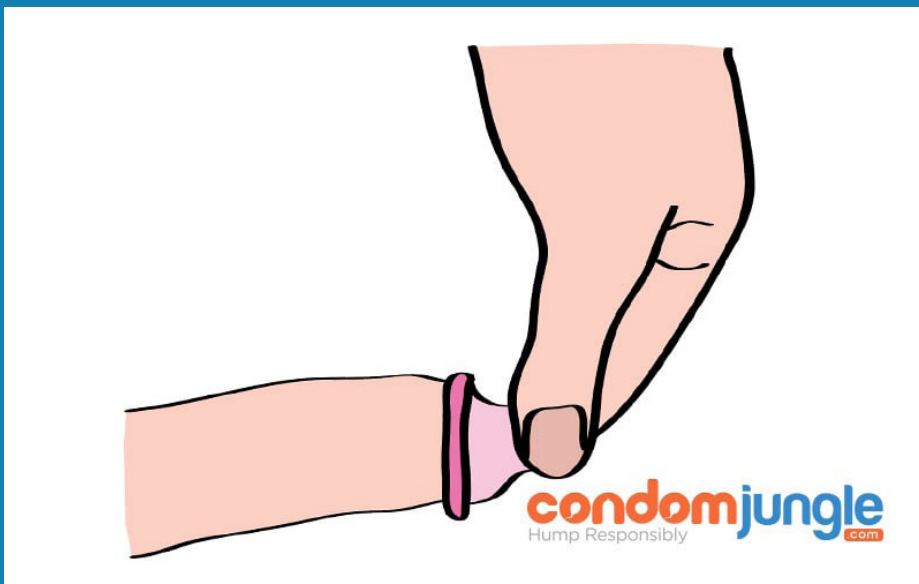

Hold the wrapper in one hand between your thumb and index finger and tear it open with the other hand.

Put it On

Squeeze the condom tip, or top if there is no reservoir tip.

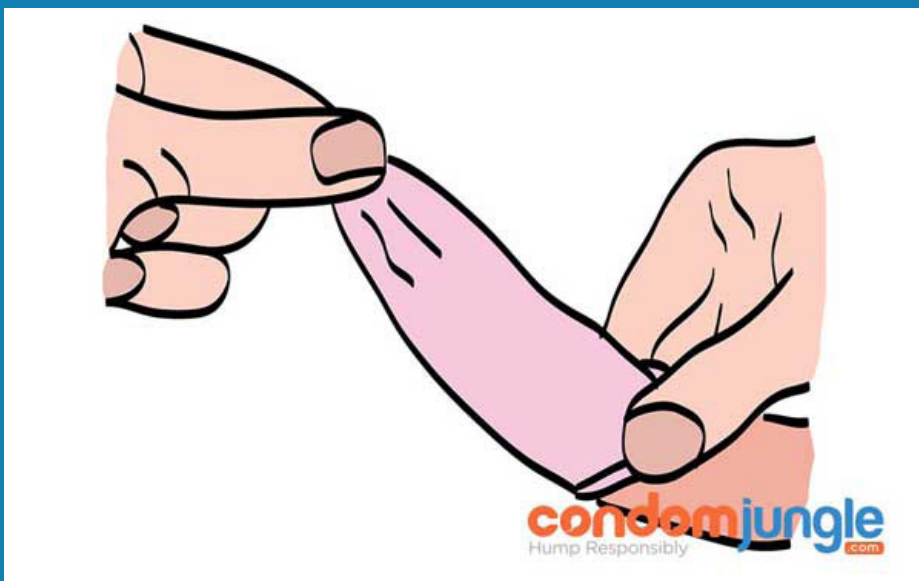

Place it on the head of your penis.

Unroll it

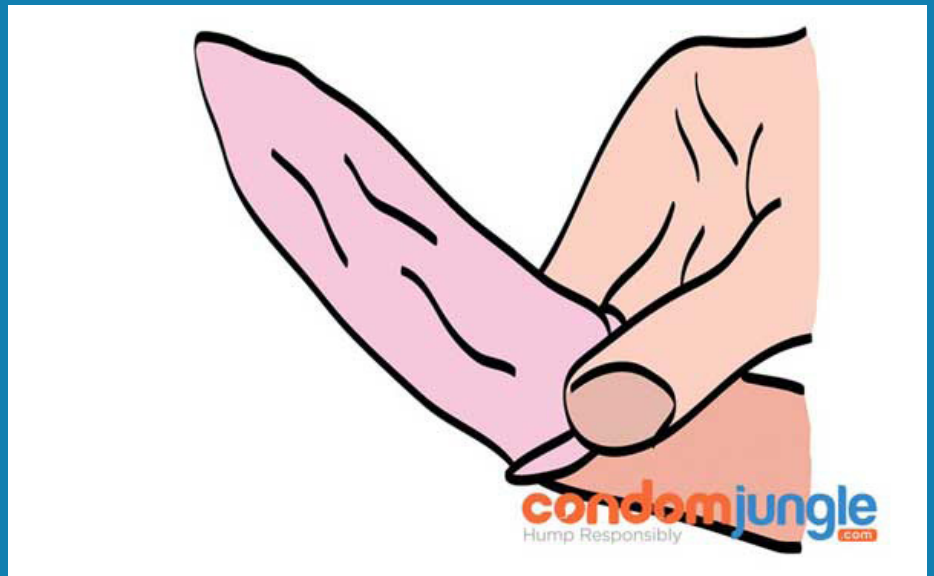

When unrolling the condom, pull it all the way to your penis' base.

If it doesn't unroll easily, make sure you didn't put the condom on backwards.

Ejaculate

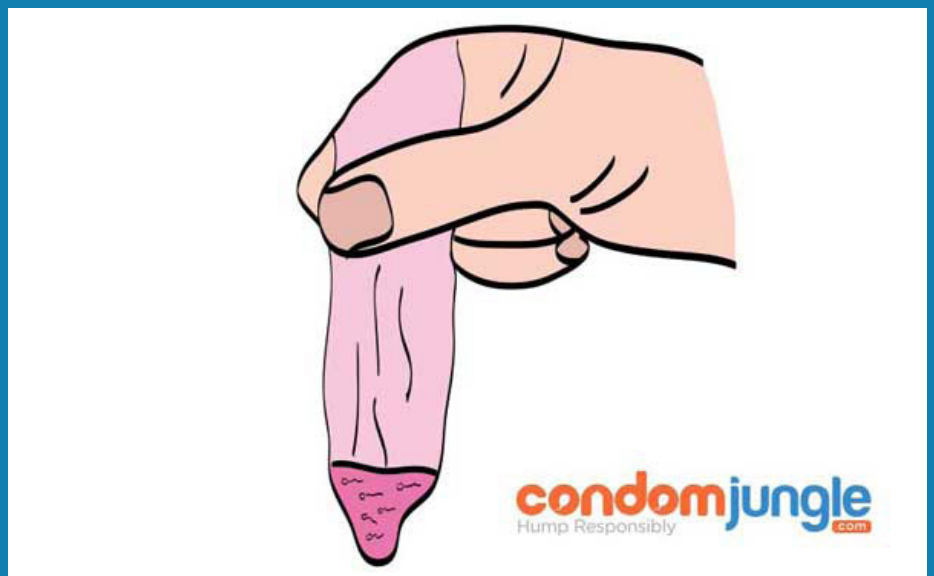

After ejaculation, the penis gets softer, losing its erection rather quickly. Make sure to hold the base of the condom in place while pulling out of the vagina.

Trash it

Remove the condom and avoid spilling semen. Throw the condom in the trash.

Remember: **NEVER** reuse a condom.
